MENU

GreanPal Online Friendship

The GreanPal friendship / penpal platform will be available on all screens including Android, tablets and iPhones.

At all times there will be an animated Minosaur for online help with a large selection of online hints. Each child will have a selection of Minosaurs to choose a Minosaur / Guide avatar from a menu.

Up to 4 children
will be able to
chat at one time

The platform will use a certified secure video chat system for the children's chat and video module such as Rocket Chat

It is an open source system used by over 12 million users in 150 countries.

The system will automatically set the language learning level based on the child's age and a very basic test of the child's current skill level.

The animated Minosaur teacher will enunciate words and sentences that the child will repeat into the device's microphone. The system will accept or reject.

As each lesson is accepted by the system, the child advances to the next lesson.

 Count along with me. One, two, three, four, five.

Teaching kids the
importance of money,
friendship and
communication

The platform will use Artificial Intelligence (AI), machine learning and open source creative software for interaction between children and the animated Greanwold characters using AI software as per the following example.

Tech Desk November 28, 2022.
DeepMind, owned by Alphabet, has unveiled a new [AI chatbot](#) called Sparrow, trained on DeepMind's large language model Chinchilla. The bot **can talk to humans and answer questions using Google Search for information**, which is rated by humans on usefulness and accuracy.

GreanPal

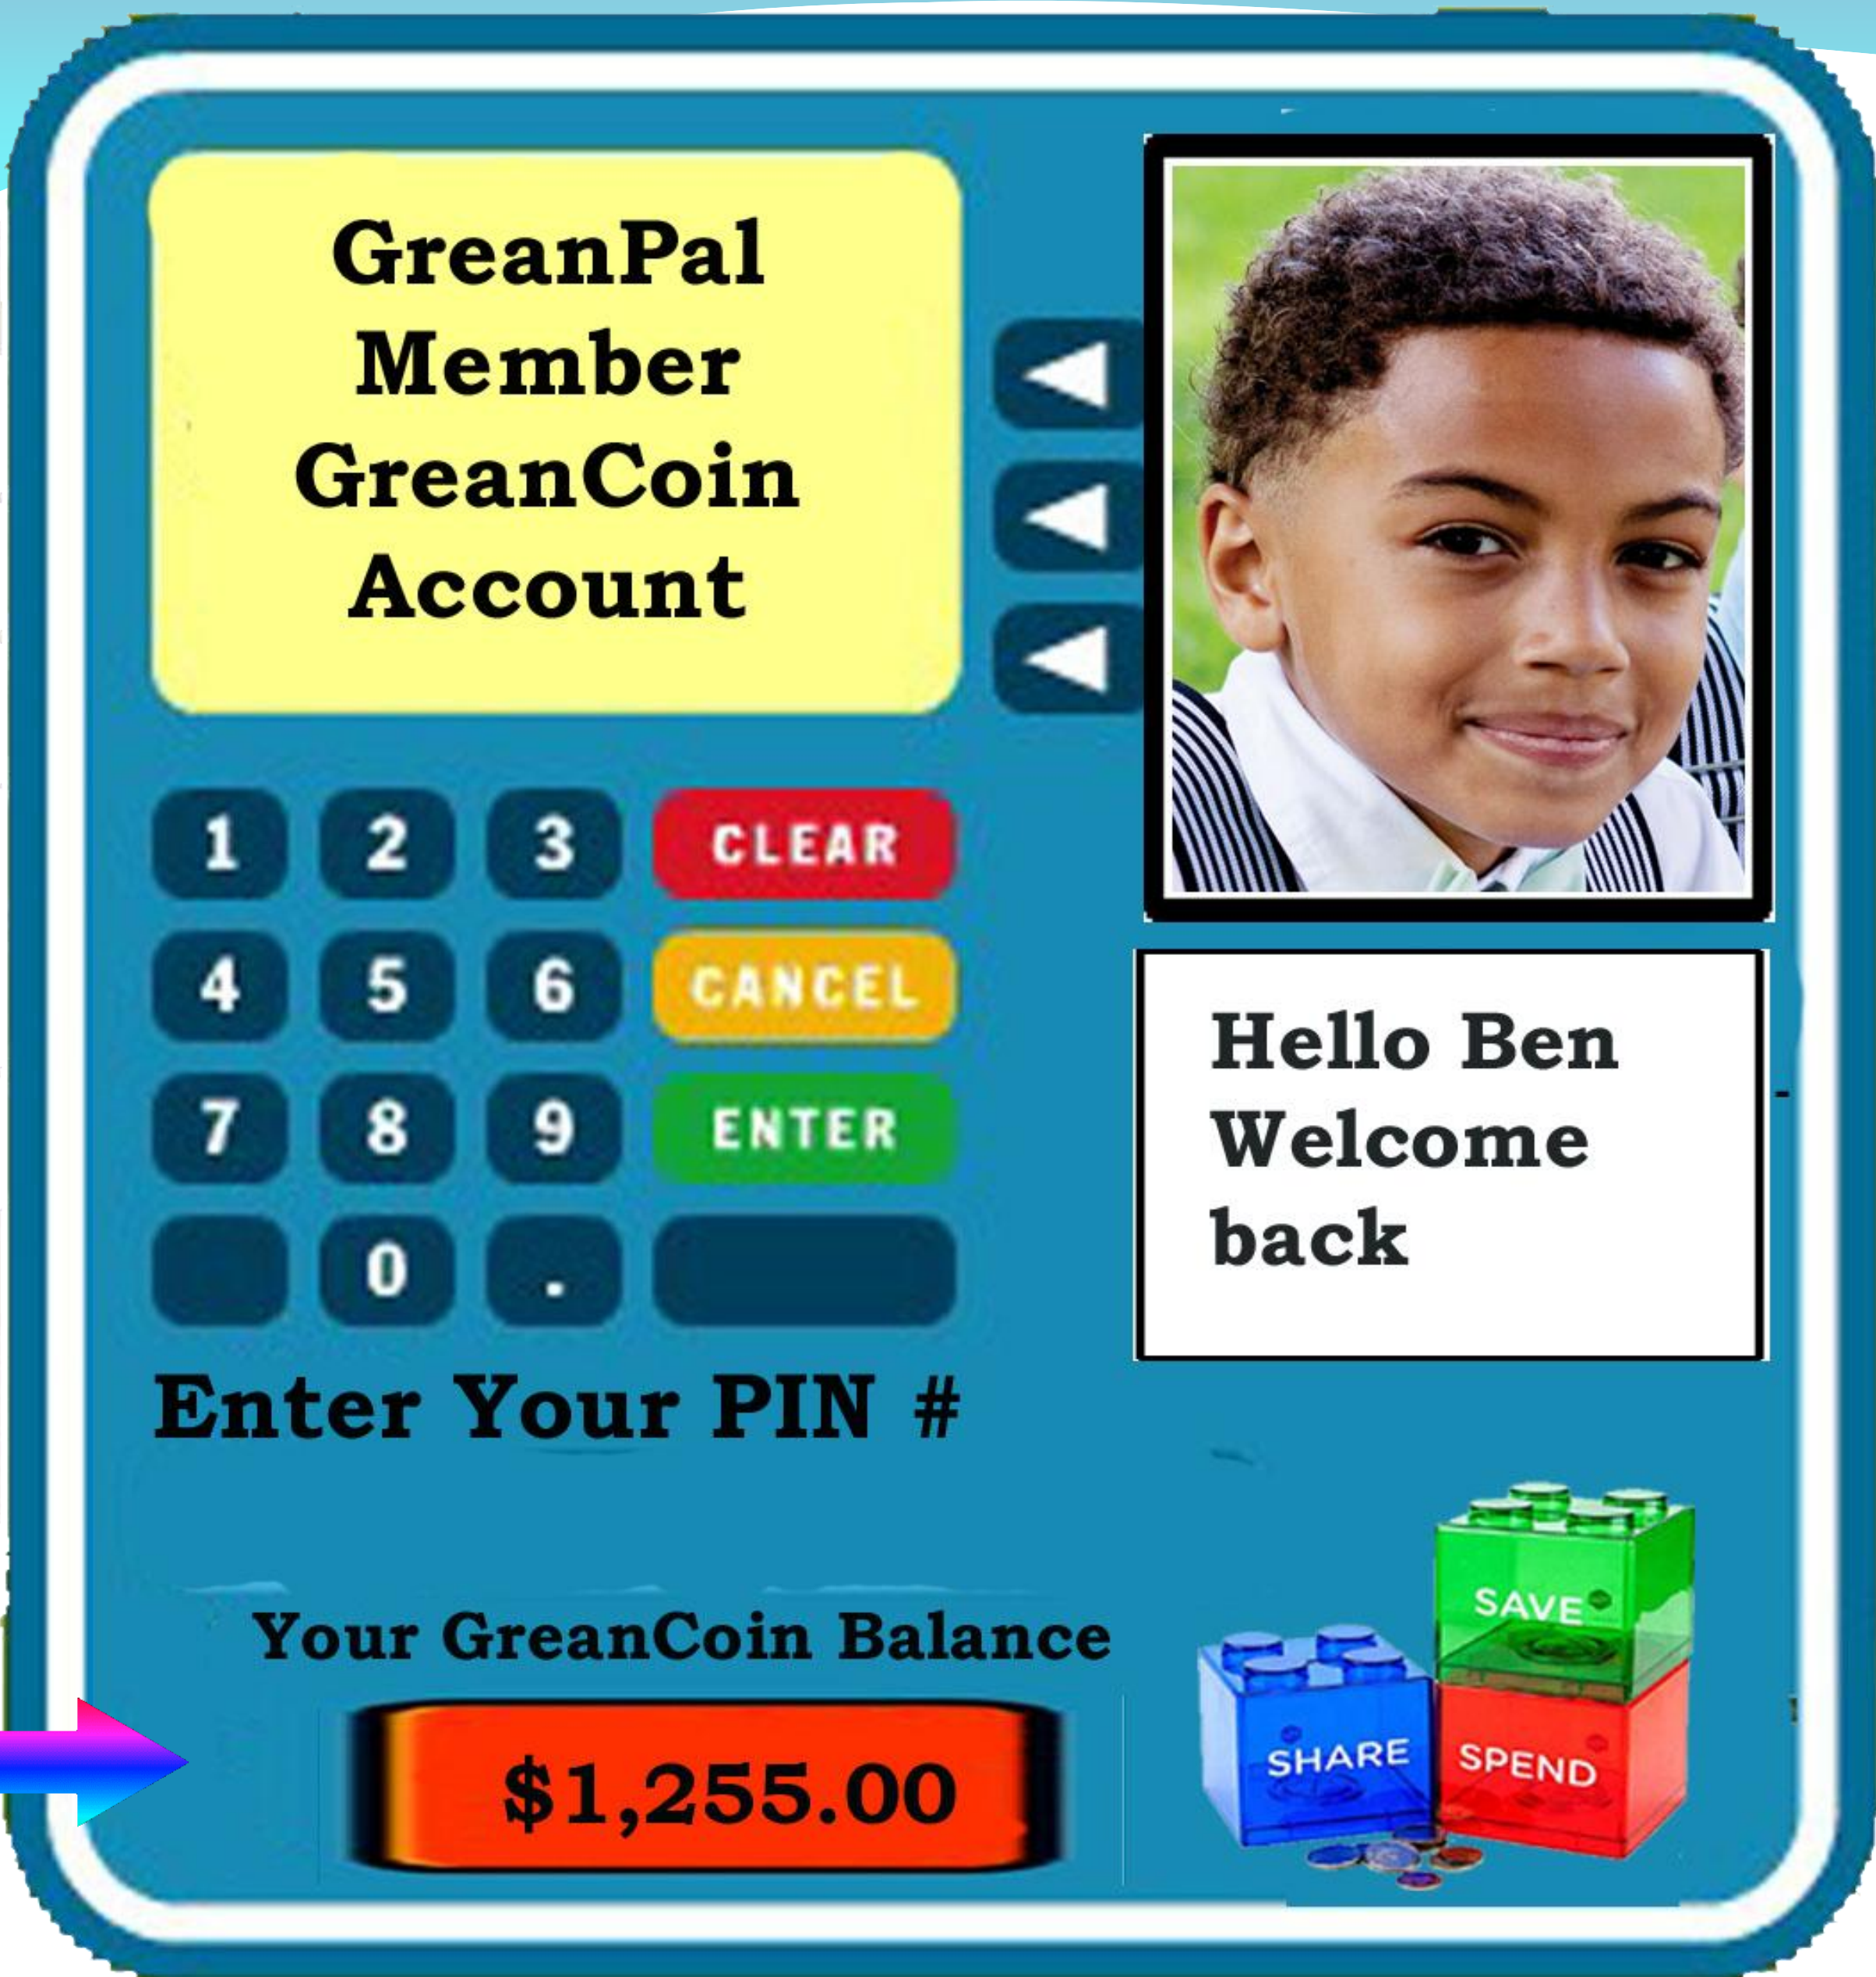

Virtual GreanCoin

To most children, money seems to grow on trees. They have a vague understanding of how their parents get them food, clothing and toys. It seems to a child as though people just go to the store, get what they want, and leave.

The aim of the GreanCoin program is to encourage member loyalty, teach children the importance of saving and to learn the value of money. The Company plans to engage in a partnership with a financial institution in promoting GreanCoin.

GreanCoin will encourage parents to keep a child enrolled in the GreanPal program whereby the value in a child's saving bank after 2 years of membership will be equal to the membership fees the parent has paid over those 2 years. The GreanCoin saving may be linked to an educational saving plan; be used to buy Greanwold products, donated to charity for kids or be linked to a reputable crypto currency such as [Solana](#).

Children will have the opportunity to earn more GreanCoins through contests and buying GreanPal and Greanwold products. Also by introducing friends who sign up, by practicing green habits and by being a “greeny”.

GreanCoins will be deposited into the virtual wallet under the control of a parent or caregiver, the number to be based on monthly membership fee eing paid and the child’s activity. At the end of each 12 month period, the GreanCoins accrued will be matched by the Company. The value of the GreanCoins will be based on a to-be finalized method or formula.

Online Security for Parents and Children

Registering Procedure for GreanPal Friends

- 1 Sign on** Children will log on to the GreanPal website with permission of a parent or caregiver using a parent's credit card or Paypal account for monthly or annual payment of membership.
- 2 Verify** Parents will be required to go through a verification process confirming the membership application and the details provided.
- 3 Authorize** Once the platform has received the verification of the child's application for membership, the account will be authorized and the parent and child will receive personal log in codes.
- 4 Customize** Children, under parental supervision, will customize their membership page using a menu provided by the Company.
- 5 Membership** The platform will run on dedicated, encrypted servers ensuring security and that payment settlement is fast, secure and transparent no matter where one resides in the world.

Online Security for Parents and Children

Log On Procedure for GreanPal Friends

- 1 Sign on** Children will only log on to the GreanPal website with permission of a parent or caregiver.
- 2 Verify** There will be a double verification system where a 6 digit code will be sent to either the email address or smartphone registered on the account.
- 3 Authorize** The six digit code will have to entered by the parent or caregiver to gain access.
- 4 Time Online** A timer will be displayed on the screen indicating time online. A Minosaur character will pop up every 20 minutes advising a 5 minute break. The timer will count down from 2 hours to zero, the recommended daily limit of screen time for a child.
- 5 Sign Off** Unless a parent overrides the system, a child's length of time each day will be limited to two and a half hours at which time the system will provide a 10 minute warning and then will sign off.

GREANWOLD'S
WORLD

Revenue Streams:

- Monthly Recurring Membership Fees
- Paid downloads
- Merchandising GreanPal and Greanwold branded toys, games, video games, electronic toys.
- Clothing and apparel
- Children's personal products
- Books, comics,
- Music
- Licensing GreanPal and Greanwold branded products.

If capital raised permits, the Company will also begin planning and developing Greanwold's World, a virtual world existing in the metaverse with the Minosaurs as Avatars. This will lead to a new line of products and revenue streams.

If sufficient capital is not raised, Greanwold's World will be produced from cash flow.
